

Prime light and Compact Design Electric Torque Wrench, suitable for a variety of applications in Straight and Angle type.

TECHNICAL FEATURES:

- Advance Technology: Highly Integrated advanced technology tool facilitates easier operation and eliminate to carry big control box.
- Servo Motor: New advanced DC servo motor brushless design brings lower noise, faster operation and delivers accurate torque.
- Accurate: High Accuracy of $\pm 4\%$, with excellent repeatability.
- Display: Dynamic display on large LCD screen.
- Wide Torque Range: Available in torque range from 150Nm-15000Nm
- More Functions: Real Time Torque Display +Angle Rotation as additional feature
- Power supply: Require Single Phase 110V or 230V AC.
- A Robust Design with the ability to adapt to nearly any Handle Configuration.
- Smart APP: Optional Wireless Bluetooth Transfer, data recording system storage millions of applications, tracking result feature.

PEHDS SERIES

TECHNICAL SPECIFICATION:

MODEL	Min. Torque (Nm)	Max Torque (Nm)	S	D	L	H1	H2	R1	R2	Weight (Kg)	Max Speed RPM
PEHDS-06	150	600	3/4"	60	385	95	240	53	102	5.5	40
PEHDS-18	350	1800	3/4"	76	400	95	240	66	135	6	14
PEHDS-30	600	3000	1"	86	430	95	240	78	145	9.8	6.5
PEHDS-45	800	4500	1.1/2"	95	430	95	240	78	145	10	5.5
